If you want to adjust your computer to function at what Microsoft calls “best performance”, do the following:

1. Right click on **My Computer**.
2. Click on **Properties**.
3. Select the **Advanced tab**.
4. In the **Performance** area, click the **Settings** button.
5. Select the **Adjust for best performance** option.
6. Scroll down to the last two items and select **use drop shadows for icon labels on desktop** and **use visual styles on windows and buttons**.
7. Click **OK** and click **OK** again.
